

PANTHER

Prolimatech's first four heat pipes cpu cooler comes out! Panther provides effective thermal solution with the combination of four high quality heat pipes and custom aluminum fins with mathematically calculated thickness. It is equipped with one 120x120x25mm PWM LED fan at low noise level. Another set of fan clips included for the compatibility of second fan. So get a Prolimatech Panther now! You'll be running your rig nimbly and quietly in the gaming jungle.

Features:

1. Four high quality nickel plated heatpipes for effective heat transfer.
2. Equipped with one 120x120x25mm PWM fan (800~1600 rpm) with four ruby red LEDs.
3. Wide gaps between fins with mathematically calculated thickness to maximize best air-to-surface cooling rate.
4. Supports Intel socket LGA 1155/1156 , and AMD AM2/AM2+/AM3/AM3+/FM1/FM2.

Dimension	130mm x 50mm x 161mm
Material	Aluminum Fins Lead-Free Solder(all contact points) Copper(heatpipes and base) Nickel Plating(heatpipes and base)
Weight	570 g(heatsink body only)
Included Fan	120 x 120 x 25mm RED LED Fan
